Message from the Chief Academic Officer/Principal

Dear High Point Academy Families,

We are deeply saddened by the recent horrific events in Parkland, Florida and our thoughts and prayers go out to the Parkland community as they face this tragedy. As a parent and school principal, I cannot even begin to imagine the terror of that day. As such, I wanted to share with you on behalf of the entire faculty and staff at HPA, that our focus is always on our students and their well-being. We understand that there are few things that scare a parent more than a crisis at their child's school. I want to assure you that our first priority is protecting our students and ensuring their safety.

At High Point Academy, we implement a number of safety measures to create a safe and caring campus. Each year we train every staff member in emergency response, we secure our building by locking all exterior doors, our receptionist controls access to the building and identifies each visitor through an instant screening system, teachers meet weekly to discuss any student concerns, students have a trusted adult to speak to if an issue arises, we have a dedicated mental health team on staff that includes a middle school counselor and family therapist that support our students in times of need. While these measures are all a part of our safety procedures, we know that it is also important to remind students that if they hear or see anything, they must say something. Students can talk with a teacher or they can call our anonymous hotline: Safe2Tell at 1-877-524-7233.

In addition to these precautions, we take time to practice emergency drills so that staff and students know what to do if there is an emergency. In fact, each year we invite Aurora Police Department to observe our safety drills. Their input and partnership has been instrumental in ensuring that our policies are up to date and incorporate current best practice. We have a School Safety Committee that is made up of administrators, faculty, staff, and families. The committee is dedicated to making HPA safer for our children and staff. If you are interested in joining our safety efforts, please attend our next Safety Committee meeting (contact Mrs. Frasier at tfrasier@highpointacademy.net).

If there is an emergency, these are the ways that we will communicate with you:

If there is a threat, the school will immediately attend to the safety of the students.

The school will communicate through an email blast, text message, and phone call to update the parents as soon as possible.

The school has different safety protocols that we follow based on each situation. For example, if there is a tornado, we follow the Tornado procedures.

At HPA, we understand the importance of our work – and that we are trusted each and every day to care for your child. We appreciate your support and partnership. Please reach out to me with any questions or concerns, my door is always open.

With husky pride,

Ms. Keri Melmed
